#### SPECIAL MEASURES & GUIDELINES

**WARNING: Proceed with caution while entering/exiting vessels or walking on docks F, G, O and P**

Aluminum plate covers providing access to cable pathways located deck side along the outer edges of the marina's docks will be progressively opened and closed as the intervention progresses.

We kindly ask you remove any objects from the deck which might prevent the maintenance company proper access.

A safety marking in the form of "security cones" will be set up to indicate when an intervention is in progress on a dock, and to identify the precise work area, which may be located in front of your vessel.

For your safety, we ask that you do not walk directly on the cable pathways when entering, exiting, or moving around on the dock when an intervention is in progress (risk of serious falls).

We appreciate your understanding.
